Very helpful. I use this to teach mentally handicapped children Spanish. There were some cards missing, actually the months of the year. The sellers sent a new box of cards and let me keep the other one. This has been a very effective teaching tool.

These cards are pretty comprehensive for a refresher or new learner. They are very thin paper, so you could make your own very similarly but the cost of ink would be prohibitive. What I did was cover these with a no heat laminate. The cards are split up by grammar such as verb, adverb, noun, and then there are a few travel cards as well. Most of the everyday words are available. I found the cards a good deal for the price and am happy with my purchase.

These are just what they claim. There is a tab on the top that is organized by subject and there are a lot for the price. I laminated mine - it took a while, but increased the years I will get from them.

Very good selection of words one uses in normal conversation. This outfit also puts out a plastic 6

page study guide with the same words. I would give it 5 stars for the convenience and insertability into a 3 prong notebook. The flashcards are more of a challenge.

Great value for the price. As someone else mentioned you can't make these yourself for as cheap as they are. They are paper, and like business cards. They can last with proper care or you can laminate with clear tape if you want them to last longer. They are categorized and numbered. Would buy them again if needed. They come in a nice box. There aren't pictures, just the words. I didn't need fancy cards, as I may tape them around the house to memorize things.

The Spanish vocabulary its just the right tools to learn Spanish, its easy to understand and to follow. My 2 young children (11 and 13) pick up Basic Spanish in 4 weeks thanks to the Spanish Phrases. I recommend it for anyone who wants to learn Spanish.

These cars are for beginner level Spanish students. There are a few intermediate cards thrown in there. They're flimsy, but that is what I was expecting. I knew most of the vocabulary in this flashcard set, but they're still useful for helping me retain words.

I like the cards and the way they are written but I wish they were printed on something a little more durable. These are very flimsy business card size cards.
