People say Budapest is the Paris of Central Europe. Maybe that statement is true because it combines a combination of western luxuries, architectural beauty, and cosmopolitan European traditions. But this baroque city is still connected to its Eastern European heritage with the steaming baths, incredibly complex language and lusty cuisine. Budapest straddles a curve in the river Danube which bisects two distinct parts. The east side is known as Pest and the west side is known as Buda, hence Budapest. It is a very logical, well laid out city. Castle Hill is the premier destination for visitors and contains many of Budapest's most important monuments and museums, and great views of Pest across the blue Danube. Pastel houses lining cobbled streets and stone balustrade overlooks give this citadel a fairy tale quality, while bullet holes from the unsuccessful 1956 uprising pockmark many buildings. The main map of Budapest covers a large part of the central city in detail and is fully indexed with hotels, sites, architecture, metro stations and parks. The City Center inset map expands the old city grid and enables you to stroll the warren of old streets and absorb Hungarian history and culture at your leisure. The inset map of Budapest Metro facilitates your travel throughout the city.

One example of the importance of on site research: when this Budapest map was first conceived in the early 1990s we ran into a unique problem with sudden unannounced street name changes. Streets named after heroic Socialist revolutionaries were changed without notice. The streets were renamed after heroes of the Hungarian National Liberation. Other maps who rely on out of date documents for updating still reflect the old street names. Imagine publishing a map and unknowingly using names like Karl Marx Ave. and Lenin Square. Whoops! Fortunately, with our STREETWISE® Budapest Map, we adhered to a policy of physically researching and updating the city, thereby avoiding these sorts of mistakes. Our pocket size map of Budapest is laminated for durability and accordion folding for effortless use. The STREETWISE® Budapest map is one of many detailed and easy-to-read city street maps designed and published by STREETWISE®. Buy your STREETWISE® Budapest map today and you too can navigate Budapest, Hungary like a native. For a larger selection of our detailed travel maps simply type STREETWISE MAPS into the search bar.

Customer Reviews

Bought this for first-ever trip to Budapest. Type terribly tiny, and I would have returned it, but thought it might be good "insurance" in case I really got lost! Never did. Why? The hotels (we stayed at the "Castle" Hilton) have plenty of free maps in English for writing on ('you are here, and here's how you get to where you're going'). The front desk folks gave us several over the course of our stay. The free maps worked great. We also used the maps in our very excellent tour book about Budapest. I'm barely 50 and only need glasses for reading. The last thing I want to do when navigating is to whip out reading glasses and squint at a map. I think this map really isn't for tourists--it's for someone visiting and staying in a residential area and needing much more detail than the average tourist. Save your bucks. Prices in Budapest are pretty reasonable, and you'll have plenty of opportunity to spend the money on great meals, and admission to the many great places to see and learn at, and then soak in one of the many Turkish baths in Budapest. Aaaahhhh! Left this map (and the useless one we bought for Vienna) in the room, not bothering to pack them back home. Maybe a resident of Budapest can use it.

I happily used this map for my November 2008 trip. This map is first-rate -- the streets are clearly marked, the major destinations are labeled properly and placed correctly. I also found the inset map of central Pest (and where many of the major sights are) to be very helpful, with virtually all of the smallest streets marked. This map and my camera were really all I needed for many fine days of sightseeing in Budapest.

An excellent map - easy to read and to fold. Highly recommended.

The idea is nice but the ability to read the street names, find specific intersections is semi lacking. Depending on your needs (extent of city, small streets) this map will hold up in the rain/abuse of constant use.

Agree with previous comments, awkward layout that requires constant flipping. Also the portion of the city that is shown at a larger scale is not particularly helpful, I would have preferred the whole map be at the same scale. But despite it's drawbacks, the map will still get you from point a to point b.

This map was a travel necessity. What a lifesaver, Budapest was a challenge but Streetwise was very easy to use and helped us to get around. very durable!

Good price!! Good quality!!... I liked, it is small (thin) enough to pack and transport locally or overseas, big enough to be read as a passenger when traveling by train, airplane, bus, or car. I definetley will make my travel information map purchases at this site!! Also. delivery was before promissed by .

I LOVE the Streetwise maps! They show the major attractions, hotels, parks, transportation line, etc per city and are very sturdy. I can carry them in my purse and not worry that thy will be crumpled or illegible! I will keep getting these for major cities I visit that I don't know. Can study them PRIOR to my visit and pretty much know the basic layout before I travel there.
