This is a VERY basic introduction to handwriting. I use it with my 5 year old son who doesn't have much patience for writing (even though he had some handwriting instruction in Preschool). When my daughter was his age, I started her with the 1st Grade book and just worked through it slowly, supplementing with plenty of my own tracing pages. I would venture to say a child with even a little bit of experience might skip this book. But it's just right for my son.

These are the best D'Nealian handwriting books I have found. Each book is very nicely catered to the grade level. My kindergartner, second grader, and fourth grader each have one for their grade level. I highly recommend them.

Perfect, well rounded, fun, and repetitive enough to get 100% scored. My kids love these workbooks. Thank you for making and keeping learning a fun thing to do in life! The repetitiveness is not noticed by the student, yet they retain their spelling rules and words.

I was disappointed with this product for a couple reasons. 1.) Often the word lists are in cursive which many students do not know. 2.) I teach special needs students and this is a bit complex - lots on "stuff" on each page and difficult tasksUnfortunately, I don't think I will be able to use this with my students.

Same practice book my child uses at school. We felt some extra practice would be beneficial. He is is enjoying working through the book. I would buy it again.
